<b>Office Action Summary</b>	<b>Application No.</b> 10/803,373	<b>Applicant(s)</b> VICTOR, BRUCE M.	
	<b>Examiner</b> Matthew J. Smith	<b>Art Unit</b> 3672	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

#### Status

- 1) ☒ Responsive to communication(s) filed on 05 June 2006.
- 2a) ☐ This action is **FINAL**.                      2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

### ***Drawings***

The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they include the following reference character(s) not mentioned in the description: "51", Fig. 3, Fig. 4A; "52" Fig. 4A; "43", Fig. 4B.

Corrected drawing sheets in compliance with 37 CFR 1.121(d), or amendment to the specification to add the reference character(s) in the description in compliance with 37 CFR 1.121(b) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

### ***Election/Restrictions***

Applicant's election with traverse of claims 23-31, 37, 38, 40-49 in the reply filed on 9 August 2006 is acknowledged. The traversal is on the grounds that the search and examination can be made without serious burden. This is not found persuasive

because the search for the magnetic embodiment is not the same as the latch-down pickup, the compression ring pickup, or the spring-loaded pickup.

The requirement is still deemed proper and is therefore made FINAL.

Claims 32-36, 39, and 50 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected species, there being no allowable generic or linking claim. Applicant timely traversed the election requirement in the reply filed on 10 August 2006.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 23, 29, and 49 are rejected under 35 U.S.C. 102(e) as being anticipated by Billingsley (6935427).

Billingsley discloses two separable, independently movable sections 26, 50; the sections continuously and mechanically latched, at 52, to move in unison and

Art Unit: 3672

preventing accidental separation; the latch disengageable at the surface (to use the plunger 26 again); open-ended sleeve 56 having a mechanical coupler 62 to releasably secure a plug top 28; and a plug 26 to mate with the coupler.

Claims 30 and 31 are rejected under 35 U.S.C. 102(e) as being anticipated by Ferguson et al. (6883612).

Ferguson et al. disclose a top mechanism with a mechanical pickup female coupling 180 to releasably secure a plug 142 that is mateable with the coupling to form a united mechanism; bypass (fig. 2) through the coupling center for fluid; and the plug 142 prevents fluid from passing through the top mechanism.

#### ***Allowable Subject Matter***

Claims 40-48 are allowed

Claims 24-28, 37, and 38 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Matthew J. Smith whose telephone number is 571-272-7034. The examiner can normally be reached on T-F, 9-4.
